Safety belt use in Louisiana, according to the most recent observation study "May, 1989", places belt use in cars and light trucks at 41% of front seat passengers.

OCCUPANTS of parked vehicles not included.

NON-INJURIES - people not injured in accidents in which others were injured or killed.

USED - safety belt used **NOT** - safety belt not used **UNK** - safety belt usage unknown

'89 Data as of August, 1990 *Approximately ½ year of Orleans Parish '89 injury data is not included.
